

6 TIPS FOR SELECTING A LOGISTICS PARTNER

1

Understanding and meeting your business needs

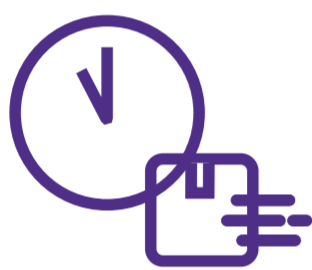

Do you have special shipping requirements, for example, strict temperature control?

2

Areas of expertise

How extensive is their network? What delivery options do they offer?

3

Reliability of service

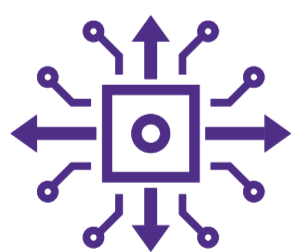

Do they have a proven track record of timely and accurate delivery?

4

Flexibility and scalability

Can they meet seasonal variations in customer demand?

5

Technological support

Can they facilitate technological advancement and integration with your system?

6

Transparent pricing

Is their pricing straightforward? Are there any terms to pay attention to?
